Overview

This application is for the original approval of IrriGreen's Genius Programmer Model 600101 under FCC 15.231. The programmer is the central control for an irrigation system. The programmer communicates with sprinkler heads, model 400101. The default radio channel center frequency is 433.92 MHz, but the 3 additional channels are available centered at 437.92, 439.92 and 443.92 MHz, in case of conflicts.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
